## BIG STORM SWEEPS EAST

Much Damage Done  
in Middle States—  
Destroys Great Crops—  
Many Cities Report  
Casualties From Heat.

Chicago, July 16.—While Missouri, Kansas and Nebraska were sweltering in the hottest temperatures of the year yesterday, the states of Minnesota, Wisconsin and Illinois were visited by severe electrical storms which brought much damage. Temperatures throughout Kansas and Missouri generally ranged above the 100 mark. Clay Center, Kan., recorded the high temperature of the day and broke all known records of the year in the middle west with 113. There were six prostrations in Kansas City, one in Sedalia and one in Wichita. Omaha reported three deaths and nine prostrations. The electrical storm that swept through Minnesota, Wisconsin and Illinois started at St. Paul in the afternoon. One was killed, one injured and many others were shocked or stunned. Two churches and a number of dwellings were struck by lightning and hundreds of dollars' worth of damage was done by the flooding of streets, cellars and basements. For over half an hour the rain fell in torrents, accompanied by one of the worst electrical discharges in years. Street car traffic was delayed and on many lines abandoned entirely. At Hastings, Minn., the storm did considerable damage to growing crops. The storm was reported as the worst that has visited that section for years. Madison, Wis., reported one of the heaviest electrical storms in its history. The \$6,000,000 capitol building was struck by lightning, which burned holes in the rugs of the assembly chamber. The home of Chief Justice Brandeis was struck by lightning, and a half dozen other residences were struck.

## MEN NOT ON STRIKE SAYS CHRISTIANSON

Although employees of the Utah Construction company at Bingham assert that the company yesterday morning put on twenty new steam shovel engineers and workmen to take the place of the same number who went on a strike Monday, the company officials deny that there was a strike. When questioned, the company officials stated that there was no trouble, that there had been no strike and no men had been thrown out of work. Said A. H. Christianson, of the company, last night: "No committee representing the men waited upon me and there were no demands for better wages until after the disgruntled men had drawn their time. The facts are that two men were discharged and they tried to stir up trouble. The so-called strike was merely the quitting of twenty dissatisfied men. As to our scale being lower than that of the Utah Copper company, there can be no comparison. They pay by the day and we by the month, so a monthly pay check represents Sundays off and days when the men are unable to work. We board the men and that is a big consideration. Most of the men are satisfied and we have had many apply to us for work who were in the employ of the Utah Copper company."

## ALFONSO TO GET FORTUNE

St. Gaudens, France, July 16.—King Alfonso of Spain will soon be able to enjoy a legacy of \$500,000 bequeathed to him by Albert Sapene, formerly mayor of a small town near Toulon, who died in an asylum some time ago. The civil court here yesterday pronounced judgment upholding the testamentary will which his sister and other next of kin had sought to have set aside on the plea that he was insane when he made it. The court held that while Sapene suffered from the mania persecution, he showed that he was fully able to conduct his business and had a valid reason in an old family quarrel for disinheriting his sister.

## PLAN BIG OUTING SUNDAY

Brigham City, July 15.—The Scandinavians of Brigham City will celebrate their annual outing in Bear River next Sunday. For a number of years the Danish association of the Mormon church has made a visit to the Bear River valley city, where they are royally entertained by the Scandinavians of that place and surrounding district. They will be accompanied by the Scandinavian choir of this city and the trip to Bear River will be made by teams and automobiles. A meeting at 2 p. m. will be one of the big features of the outing, and prominent Salt Lakeers will join the party here and address the people in the meeting.

## DIVORCE GRANTED AMERICAN WOMAN

London, July 16.—A decree of divorce was granted yesterday to Mrs. George Cornwallis-West, formerly Lady Randolph Spencer Churchill, a daughter of the late Leonard Jerome of New York. The decree (nisi) may be made absolute in six months. The grounds for granting the decree were statutory desertion and misconduct. The hearing lasted only a few minutes. No mention was made in court of the name of the woman alleged to have been co-respondent. Mr. Cornwallis-West, counsel stated, never obeyed the order of the court decreeing the restitution of conjugal rights and this constituted desertion. Mrs. Cornwallis-West formally corroborated counsel's statement regarding her husband's non-compliance with the restitution order. She said her husband left her on December 27, 1912, and never returned. He had written saying he never intended to return. An inquiry agent testified that the respondent was with a woman not the petitioner in a London hotel in

March, registering as Captain and Mrs. West. A chambermaid from the hotel testified to the occupation of a room by Mr. Cornwallis-West and a woman not the petitioner. Mrs. Cornwallis-West gave her brief evidence in a collected manner and in a firm voice. She was dressed in a quiet, dark blue costume and black hat, and stood on the witness stand apparently unmoved by the great crowd which had been attracted to the court by the case. She will take the name of Lady Randolph.

## SMOOTH SWINDLER IS RUN TO COVER

Boise, Ida., July 15.—Arrested on the charge of issuing a bogus check given to the First National bank of Denver and drawn on the Boise City National bank of this city, William A. Matthews, the insurance operator wanted in Boise for promoting the Overland Insurance company and then it is charged departing with \$20,000, is now in jail at Norfolk, Va. Matthews will be taken to Denver to stand trial on the Denver charge, while the Boise charge of obtaining money under false pretenses will be over his head. Matthews is the son of a prominent Atlanta, Ga., family. Of striking appearance, very neatly dressed, with an ability to influence the strongest-willed and hardest-headed business men, Matthews took southern Idaho by storm. Armed with a prospectus showing the proposed officers of the new insurance company, he made his advances to bankers to place stock and not only sold them, but secured letters of recommendation to other bankers and business men, who were induced by the credentials to buy. When he left Boise there was a general stampede to locate the smooth promoter, but he had decamped.

## COOPERATIVE BANKS' PLAN

(Special to the Standard.)

Coblenz, Germany, July 16.—The American commission on agricultural co-operation has visited this city and seen the monument and house of Raiffeisen, founder of the German co-operative banking system that bears his name. It was a notable occasion, and David Lubin, founder of the International institute of agriculture at Rome, Italy, who is accompanying the commission on its investigations of agricultural co-operation and co-operative banking in fourteen European countries, delivered an address at the house of Raiffeisen. Mr. Lubin said in part: "We are beginning to discern with clearness that the task before us is not merely economic amelioration, but that it is higher than that. It reaches upward until it strikes the true essence of political stability, ensuring peace and equity, not merely for the people of the United States, but political peace and equity wherever the principles underlying these doctrines shall take root. We hope to add our amendment to the really great work begun by Father Raiffeisen. We hope to show that the very root and secret of our work is not merely to find amelioration for the farmer—for it would be just as charitable to find amelioration for the shoemaker and the carpenter; the scope of our work goes beyond that. In its final analysis this work will be found to ensure not amelioration for the American farmer, but stability for the American republic. In speaking of Raiffeisen and of his work we feel impelled to say that whatever the results, whether the American people profit by this inquiry or no, there can be no question as to this: That the people of Germany and of other European countries are gainers through the Raiffeisen system. It now remains to be seen whether it would be practicable to adopt this system in the United States. In this period of our inquiry it is too early for this commission to pronounce in favor of the adoption by the American people of the Raiffeisen system. Further inquiry may determine a conclusion in the affirmative; but what ever be the ultimate conclusion there is no denying the hope, the strong hope, that we may, towards the end of our inquiry, be justified in setting forth in our findings, if not the Raiffeisen system as in operation in Germany, then some derivation of that system."

It goes further than others by uniting with Peroxide of Hydrogen the valuable properties of Thymol, Menthol and Eucalyptol; thus acting with equal efficiency as a cleansing and healing agent.

month but was postponed on account of rainy weather. Knights and their friends from Ogden, Eureka and Park City will join with Salt Lake members in the day's programme. A baseball game between teams representing Ogden council and Salt Lake council to decide the state championship of the knights will be the big feature of the afternoon meeting. Both councils have strong aggregations, and the contest promises to be interesting. The game is scheduled for 2 o'clock on the Lagoon field.

SMASHING PRECEDENTS.  
"My girl's father used to sit in the kitchen of evenings. But when President Wilson called on the Senate, it stirred the old man up so that he, too, has smashed precedent."

"Yes; now he comes in and sits with us occasionally."—Washington Herald.
